TECHNICAL SKILLS

LANGUAGES

- JavaScript (ES6+)
- TypeScript
- SQL
- Bash

FRONTEND

- React.js
- Next.js
- Redux Toolkit
- Context API
- Tailwind CSS
- Ant Design
- Bootstrap
- GSAP
- SSR / SSG / ISR

BACKEND & APIS

- Node.js
- Express.js
- NestJS
- REST
- GraphQL
- JWT / OAuth2
- RBAC

OMNICHANNEL & REAL-TIME

- WebSockets
- Socket.IO
- WhatsApp Business API
- Twilio
- Multi-Channel Routing
- Redis Pub/Sub
- RabbitMQ

AI & CHATBOTS

- LLM API Integration
- OpenAI
- Prompt Handling
- Conversational UI

DATABASES

- MongoDB
- PostgreSQL
- MySQL
- Supabase
- Firebase

TESTING & QUALITY

- Playwright
- Jest
- Mocha
- Cypress
- Postman
- ESLint / Prettier

COLLABORATION

- Agile / Scrum
- Jira
- ClickUp
- Linear
- Git

LANGUAGES

- English
- Urdu
- Professional
- Native

Zeeshan Ahmed

SENIOR FULL-STACK DEVELOPER · SOFTWARE ENGINEER
JAVASCRIPT · TYPESCRIPT · OMNICHANNEL · AI-ENABLED

PROFILE

Senior Full-Stack Developer with **6+ years** of experience designing, building, and deploying scalable web applications using JavaScript, TypeScript, React, Next.js, and Node.js. Specialized in **AI-powered and omnichannel applications** — chatbot interfaces, LLM-based workflows, and real-time multi-channel customer engagement — backed by secure REST and GraphQL APIs. Strong background in fintech, CRM platforms, performance optimization, and remote-first agile collaboration, comfortable owning features end-to-end in distributed teams.

PROFESSIONAL EXPERIENCE

Senior Full-Stack Developer / Acting CTO

CURRENT

Apr 2023 – Present

Mexil Software Solutions · Hands-on technical leadership

- Lead hands-on full-stack development and **technical execution** across multiple client projects.
- Architect scalable frontend and backend systems with React.js, Next.js, TypeScript, Node.js, and MongoDB.
- Built **omnichannel customer-engagement** features unifying web chat, WhatsApp, and messaging channels with real-time WebSocket / Socket.IO communication and conversation routing.
- Designed and integrated **AI-powered chatbot** features — conversational UI, prompt handling, and LLM API orchestration.
- Designed and maintained secure REST and GraphQL APIs with authentication, authorization, and role-based access control (JWT).
- Implemented SSR, SSG, and Server Actions in Next.js for performance and SEO; applied Redis caching and message-based async workflows for responsiveness.
- Delivered fintech and CRM features — dashboards, admin systems, and payment workflows — in agile, remote-first teams.

Senior Software Engineer

Jan 2021 – Mar 2023

Mexil Software Solutions

- Built and maintained production-grade **MERN applications** with reusable, component-driven architectures.
- Developed responsive UIs using React, TypeScript, Tailwind CSS, Material UI, Ant Design, Bootstrap, and DaisyUI.
- Implemented scalable state management with Redux, Redux Toolkit, and Context API.
- Designed and integrated REST and GraphQL APIs with Node.js / Express; modeled data across MongoDB, PostgreSQL, Supabase, and Firebase.
- Integrated third-party services and **payment gateways** (Stripe, PayPal, Plaid) at API level.
- Implemented automated E2E testing (Playwright) and unit testing (Jest, Mocha); active in Agile/Scrum ceremonies.

Junior Software Developer

Sep 2019 – Dec 2020

Mexil Software Solutions

- Developed backend features in Node.js and JavaScript; assisted with API development, schema updates, and third-party integrations.
- Fixed bugs and improved system stability, supporting testing and deployments.
- Gained hands-on experience with Git, Agile workflows, and secure coding practices.

EDUCATION

BS Computer Science (BSCS)

NUST University · 2015 – 2019

DOMAIN FOCUS

- Fintech & Payment Workflow Integrations
- CRM Platforms & Admin Dashboards
- AI Chatbots & Omnichannel Engagement
- Role-Based Internal Systems
